SUBJECT INDEX

Accuracy
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Aerial photography
GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

Automation
Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.

Buoys
Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.

Buried pipes
Measurement of Deformations in Buried Pipeline, W. F. Teskey, D. A. Bayly and I. R. Colquhoun, SU Feb. 92, p1-10.

Cadastral surveys
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Cartography
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Coast Guard
Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.

Comparative studies
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Computer programs
Solving Circular Curve Using Newton-Raphson's Method, Chun-Sung Chen and Lih-Shinn Hwang, SU Feb. 92, p24-32.

Computer software
Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Continuing education
Delineating Theory for GPS Surveying, Alfred Leick, SU May 92, p33-42.

Curricula
Delineating Theory for GPS Surveying, Alfred Leick, SU May 92, p33-42.

Curvature
Solving Circular Curve Using Newton-Raphson's Method, Chun-Sung Chen and Lih-Shinn Hwang, SU Feb. 92, p24-32.

Data collection
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

Decision making
Using Expert Systems to Manage Professional Survey Practices, T. K. Koo and Y. B. Aw, SU May 92, p43-62.

Deformation
Measurement of Deformations in Buried Pipeline, W. F. Teskey, D. A. Bayly and I. R. Colquhoun, SU Feb. 92, p1-10.

Ecuador
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Electronic equipment
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Elevation
Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Emergency services
LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Engineering education
Delineating Theory for GPS Surveying, Alfred Leick, SU May 92, p33-42.

Equipment
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Error analysis
Robust Testing Procedure for Detection of Multiple Blunders, Y. Gao, E. J. Krakiwsky and J. Czompo, SU Feb. 92, p11-23.

Errors
Robust Testing Procedure for Detection of Multiple Blunders, Y. Gao, E. J. Krakiwsky and J. Czompo, SU Feb. 92, p11-23.

Estimating
Estimating Pit-Excavation Volume Using Cubic Spline Volume Formula, Chun-Sung Chen and Hung-Cheng Lin, SU May 91, p51-66.

Excavation
Estimating Pit-Excavation Volume Using Cubic Spline Volume Formula, Chun-Sung Chen and Hung-Cheng Lin, SU May 91, p51-66.

Expert systems
Using Expert Systems to Manage Professional Survey Practices, T. K. Koo and Y. B. Aw, SU May 92, p43-62.

Geodesy
Delineating Theory for GPS Surveying, Alfred Leick, SU May 92, p33-42.

Geographic information systems
GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Geoid
Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Global positioning
Delineating Theory for GPS Surveying, Alfred Leick, SU May 92, p33-42.

GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

Integrated GPS-INS for High-Accuracy Road Positioning, M. E. Cannon, SU Nov. 92, p103-117.

Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.

LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Height
Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Inertial surveys
Integrated GPS-INS for High-Accuracy Road Positioning, M. E. Cannon, SU Nov. 92, p103-117.

Intelligent vehicle highway systems
LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Interconnected systems
LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Kalman filter
Integrated GPS-INS for High-Accuracy Road Positioning, M. E. Cannon, SU Nov. 92, p103-117.

Kinematics
Integrated GPS-INS for High-Accuracy Road Positioning, M. E. Cannon, SU Nov. 92, p103-117.

Land titles
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Land usage
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Least squares method
Robust Testing Procedure for Detection of Multiple Blunders, Y. Gao, E. J. Krakiwsky and J. Czompo, SU Feb. 92, p11-23.

Managers
Using Expert Systems to Manage Professional Survey Practices, T. K. Koo and Y. B. Aw, SU May 92, p43-62.

Mapping
GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

Measurement
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Measurement of Deformations in Buried Pipeline, W. F. Teskey, D. A. Bayly and I. R. Colquhoun, SU Feb. 92, p1-10.

Measuring instruments
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Modeling
Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Navigation
Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.

LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Newton-Raphson method
Solving Circular Curve Using Newton-Raphson's Method, Chun-Sung Chen and Lih-Shinn Hwang, SU Feb. 92, p24-32.

Numerical analysis
Solving Circular Curve Using Newton-Raphson's Method, Chun-Sung Chen and Lih-Shinn Hwang, SU Feb. 92, p24-32.

Performance evaluation
Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

Photogrammetry
GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

Polynomials
Estimating Pit-Excavation Volume Using Cubic Spline Volume Formula, Chun-Sung Chen and Hung-Cheng Lin, SU May 91, p51-66.

Positioning
Integrated GPS-INS for High-Accuracy Road Positioning, M. E. Cannon, SU Nov. 92, p103-117.

Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.

Professional practice
Using Expert Systems to Manage Professional Survey Practices, T. K. Koo and Y. B. Aw, SU May 92, p43-62.

Response time
LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Rural areas
Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Satellite mapping
Integrated GPS-INS for High-Accuracy Road Positioning, M. E. Cannon, SU Nov. 92, p103-117.

Splines
Estimating Pit-Excavation Volume Using Cubic Spline Volume Formula, Chun-Sung Chen and Hung-Cheng Lin, SU May 91, p51-66.

Statistical analysis
Robust Testing Procedure for Detection of Multiple Blunders, Y. Gao, E. J. Krakiwsky and J. Czompo, SU Feb. 92, p11-23.

Statistics
Orthometric Heights from Global Positioning System, Jerome Fiedler, SU Aug. 92, p70-79.

Surveying
Delineating Theory for GPS Surveying, Alfred Leick, SU May 92, p33-42.

Ecuador's Rural Cadasters and Land Titling Project (CATIR): Technical Process, Ricardo Javier Moreno, SU Nov. 92, p118-129.

Electronic Theodolites: Comparison Test, Abdalla Elsadig Ali, SU Feb. 91, p3-8.

GPS/Positioned Digital Video for Airborne GIS Data Acquisition, Brent Wanless, SU Aug. 92, p80-89.

Robust Testing Procedure for Detection of Multiple Blunders, Y. Gao, E. J. Krakiwsky and J. Czompo, SU Feb. 92, p11-23.

Using Expert Systems to Manage Professional Survey Practices, T. K. Koo and Y. B. Aw, SU May 92, p43-62.

Surveys
Measurement of Deformations in Buried Pipeline, W. F. Teskey, D. A. Bayly and I. R. Colquhoun, SU Feb. 92, p1-10.

Test procedures
Robust Testing Procedure for Detection of Multiple Blunders, Y. Gao, E. J. Krakiwsky and J. Czompo, SU Feb. 92, p11-23.

Three-dimensional analysis
Measurement of Deformations in Buried Pipeline, W. F. Teskey, D. A. Bayly and I. R. Colquhoun, SU Feb. 92, p1-10.

Transportation systems
LGG System for Emergency Response Applications, Anthony A. Saka, SU Aug. 92, p90-98.

Volume measure
Estimating Pit-Excavation Volume Using Cubic Spline Volume Formula, Chun-Sung Chen and Hung-Cheng Lin, SU May 91, p51-66.

Waterways
Laptop Automated Navigation Aid Positioning System with Differential GPS, Charles F. Klingler, Michael R. Wroblewski and Scott Krammes, SU Nov. 92, p130-134.
